Profile	MIT trained engineer, technologist, and designer. Incoming Masters' student at MIT Media Lab. Seeking a spring internship to gain experience in the design industry. Interested in bringing interactive affordances to the physical world, especially via creative software.	
Education	Massachusetts Institute of Technology	June 2019 - December 2020 (expected) Candidate for M.S in Media Arts and Sciences, MIT Media Lab - Object Based Media
	Massachusetts Institute of Technology	September 2015 - January 2019 B.S in Computer Science and Engineering, Minor in Design
Experience	Research Assistant; MIT Media Lab Object Based Media	June 2018–Present Conducting individual research as well as group research. Working to examine the intersection between creative and display technologies. Individual research currently focusing on scattering models for alternatives to interior lighting as well as artificial intelligence around cosmetics. Group research including repairing old demonstrations and preparing an exhibition piece for the MIT Museum centered around interactive coral.
	Research Assistant, MIT Media Lab City Science; Cambridge, MA	2015 - 2018 Programming software for tangible intervention systems. Formulating math models for simulations like gender accessibility in cities or office workflow based off sensor data. Developing algorithms and data structures to make complex systems more realistic and efficient for real time changes and interaction. Processing, analyzing, and visualizing large sets of spatial data for user intervention. Utilizing computer vision, embedded electronics, and projection mapping. Managing projects, work sessions with member companies, and demos.
	Software Engineering Intern, Apple; Cupertino, CA	Summer 2017 Developed software in context of various Apple products in the Cloud Services Localization (CSL) team and analyzed device interaction and behavior through international consumers.
	Software Developer, PJ's Radio Control; Scottsdale, AZ	2012-2015 Designed and developed website. Integrated e-commerce. SEO for Amazon and other third party retailers. Configured part fitment database and search parts by model tool in website.
Skills	Software	Java, Python, C++, C
	Web	Javascript, CSS, HTML, SQL, Ruby on Rails, three.js, OpenGL
	Visualization	Processing, p5.js, d3.js, Tableau
	Electronics	Arduino, Eagle, PID, general electronics and controllers, circuit design
	Design	CAD (Rhinoceros and Grasshopper), Photoshop, Illustrator, Lightroom, InDesign, Drafting, Unity
	Fabrication	Laser cutter, 3D Printer, CNC, Woodworking, Hand tools, Water jet
	Misc.	QGIS, ArcGIS, Projection Mapping
